Who we are?

In 2015 Sam Watch started a cryptocurrency trading cooperative with a group of his fellow traders. Our team took advantage of the growing popularity of virtual currencies and Bitcoin price rally. It was time for brave people who were not afraid to risk. It was our time. We became witnesses of the world of finance entering into a new era. We quickly recognized that was not a time to talk - that was time to act.

Now we know we made the best choices. Every risk we have taken so far has paid off. It's time to take another step and get to the highest level. And we believe that the highest level in our business is your own cryptocurrency exchange. There is a lot of competition on the market but there is always a place for brave people like us. We are one small step from opening the best, most innovative, community-based cryptocurrency exchange in the world. We are changing the world. This is not a time to talk - this is a time to act.

THE SAFETY OF YOUR FUND IS OUR TOP PRIORITY.

FOREX

Competent financial management is not an easy task. Trading strategies and currency market patterns and techniques are often way too complicated for general audience. There are countless strategies that can be followed, however, understanding and being comfortable with the strategy is essential. Our expertise has unique goals and resources, which must be taken into consideration when selecting the suitable strategy.

Our expertise uses three criteria to compare different strategies on their suitability:

- Time resource required.
- Frequency of trading opportunities.
- Typical distance to target.
